### Dashboard

This dashboard shows data on individuals who are under the custody of New York State Department of Corrections and Community Supervision (DOCCS) at a point in time. First of the month snapshot data is uploaded from DOCCS's systems monthly.

For more reports on DOCCS' population, please see:

<https://doccs.ny.gov/research-and-reports>

### Notes

Please note that data labeled May 1, 2024 was actually generated May 4, 2024.

Individuals labeled with "Not Coded" for some dimensions (such as offense type) are primarily individuals who are newly admitted to the Department's custody and haven't yet

had all information entered on the computer system. Those are generally resolved within 1 month.

### **Chart: Prison population over time**

The chart describes the historical incarceration population over the selected "Time Period." Each data point represents the total population for the selected group on the first day of that month. For example, hovering over the "November 2020" data point on the chart will show the total number of people described in the section above on November 1, 2020.

### **Chart: Prison population by facility**

The chart describes the number of people in each facility as of the date specified in the chart title.

### **Chart: Prison population by race**

The chart describes the number of people by self-reported race as of the date specified in the chart title.

### **Chart: Prison population by sex**

The chart describes the number of people by sex as of the date specified in the chart title.

### **Chart: Prison population by age group**

The chart describes the number of people in each age group as of the date specified in the chart title.

### **Chart: Prison population by ethnic status**

The chart describes the number of people by self-reported ethnicity as of the date specified in the chart title.

## **Chart: Prison population by minimum sentence (months)**

The chart describes the number of people within each minimum sentence category (in months) as of the date specified in the chart title.

## **Chart: Prison population by maximum sentence (months)**

The chart describes the number of people within each maximum sentence category (in months) as of the date specified in the chart title.

## **Chart: Prison population by conviction county**

The chart describes the number of people from each county of conviction as of the date specified in the chart title.

## **Chart: Prison population by offense type**

The chart describes the number of people within each offense type category as of the date specified in the chart title.

## **Questions**

If you have questions, please contact [dashboards@doccs.ny.gov](mailto:dashboards@doccs.ny.gov).
